

SAS OnDemand for Academics

Running SAS Online for Free

SAS OnDemand for Academics provides free access to SAS in a cloud-computing framework through a web application called “SAS Studio”. You can access SAS Studio through the internet with an up-to-date web browser. No additional installation of software on your computer is required. As long as you have a supported version of a common Web browser and an internet connection, you can use SAS OnDemand for Academics via SAS Studio for free. The following browsers are supported:

- Microsoft Internet Explorer 9, 10, 11 (Microsoft Internet Explorer 10 or greater is recommended for certain features, such as the ability to drag and drop files)
- Mozilla Firefox 14+
- Google Chrome 21+
- Apple Safari 6.0+ (on Apple OS X)

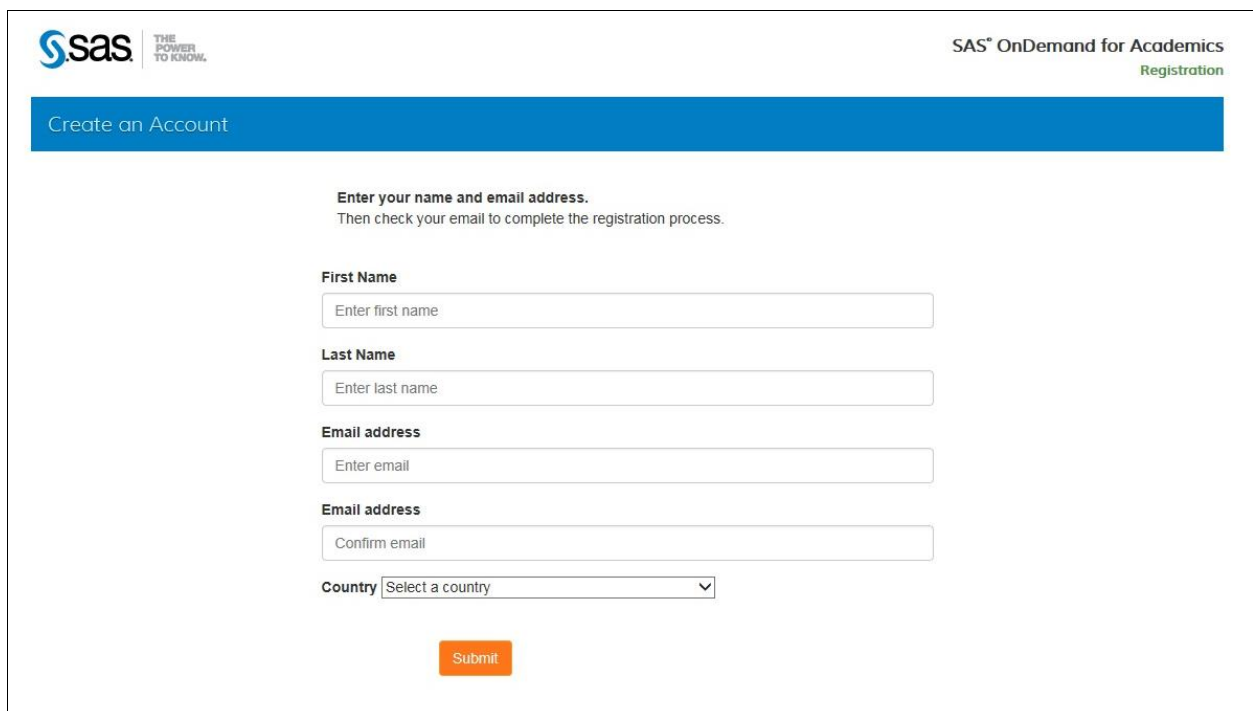

However, before you can use SAS in this manner, you must register for it. This is a two-step process that you can do in one sitting. It does not take long:

1. First you register yourself with SAS by acquiring a SAS profile. (If you think that you may already have a SAS profile, skip ahead to the section “**If you already have a SAS profile ...**”)
2. Second, you register for SAS OnDemand for Academics.

Then you will be ready to go. There is a two-minute video of the whole process at <http://www.sas.com/apps/webnet/video-sharing.html?bcid=3794695462001>. Details:

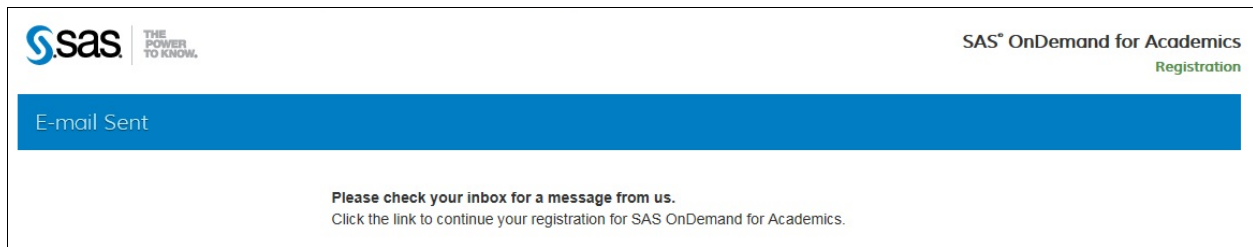

1. First, register yourself with SAS by creating a **SAS profile**:

Point your browser to <https://odamid.oda.sas.com/SASODARegistration/> and fill out a brief registration form that will ask for your name and email address to create or find your SAS profile (see screen shot below).

The screenshot shows the SAS OnDemand for Academics Registration page. At the top left is the SAS logo with the tagline "THE POWER TO KNOW". At the top right is the text "SAS® OnDemand for Academics" and "Registration". Below this is a blue header bar with the text "Create an Account". The main content area has the instruction "Enter your name and email address. Then check your email to complete the registration process." followed by four input fields: "First Name" (placeholder: Enter first name), "Last Name" (placeholder: Enter last name), "Email address" (placeholder: Enter email), and "Email address" (placeholder: Confirm email). Below these is a "Country" dropdown menu with the text "Select a country". At the bottom is an orange "Submit" button.

Click SUBMIT on the above form. Next, you will see a message ...

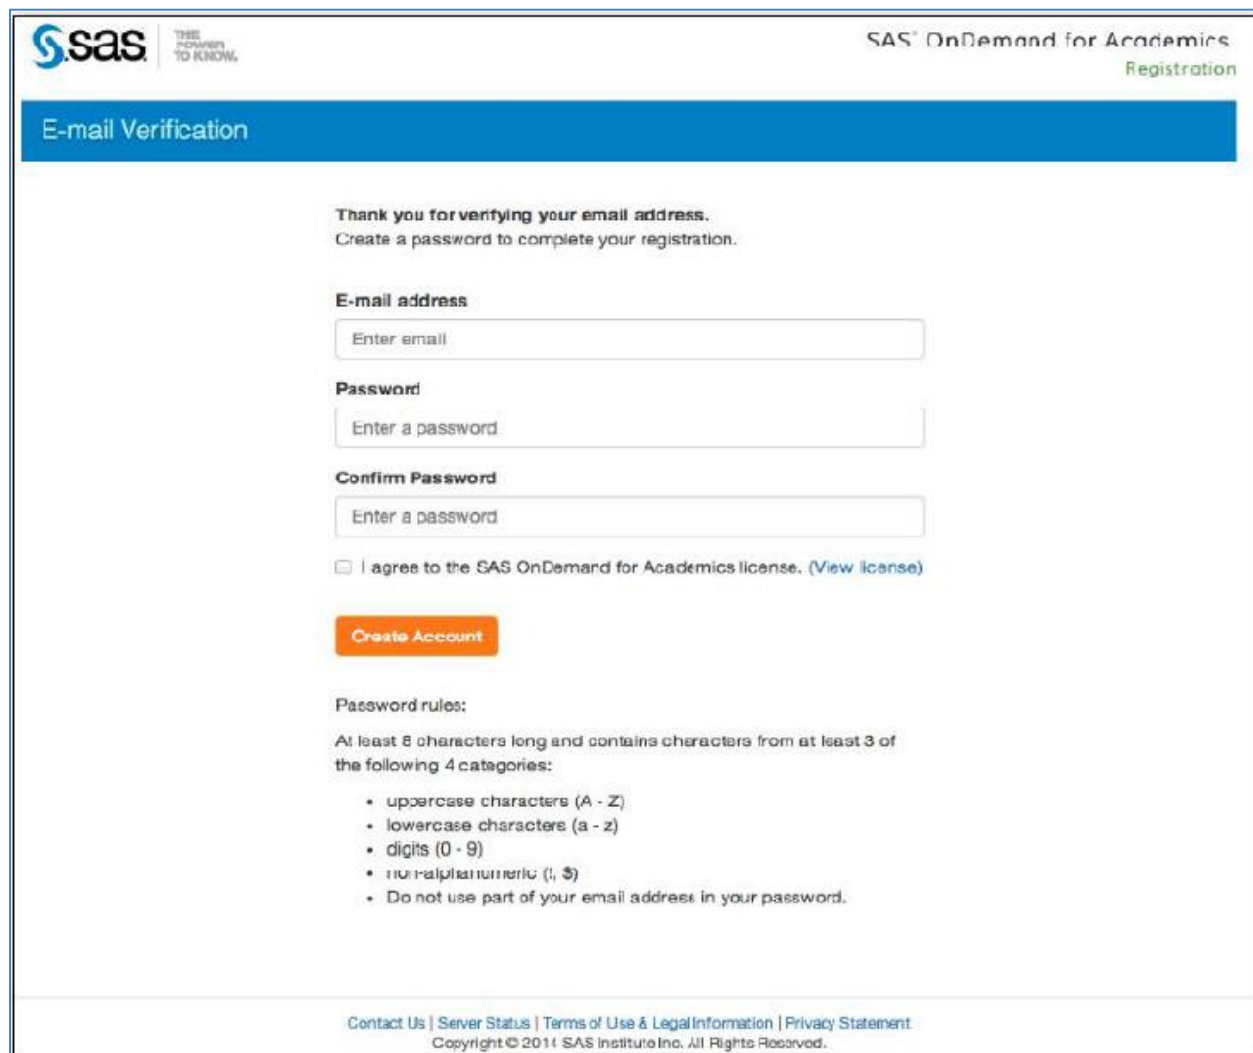

The screenshot shows the top of the SAS OnDemand for Academics Registration page. The SAS logo and tagline 'THE POWER TO KNOW.' are on the left. The page title 'SAS® OnDemand for Academics' and 'Registration' are on the right. A blue banner at the top says 'E-mail Sent'. Below it, a message reads: 'Please check your inbox for a message from us. Click the link to continue your registration for SAS OnDemand for Academics.'

... advising you that SAS has sent an email to the email account that you provided. Check in your inbox for a message from SAS and click on the link (or copy and paste the link into a web browser). That link will take you to ...

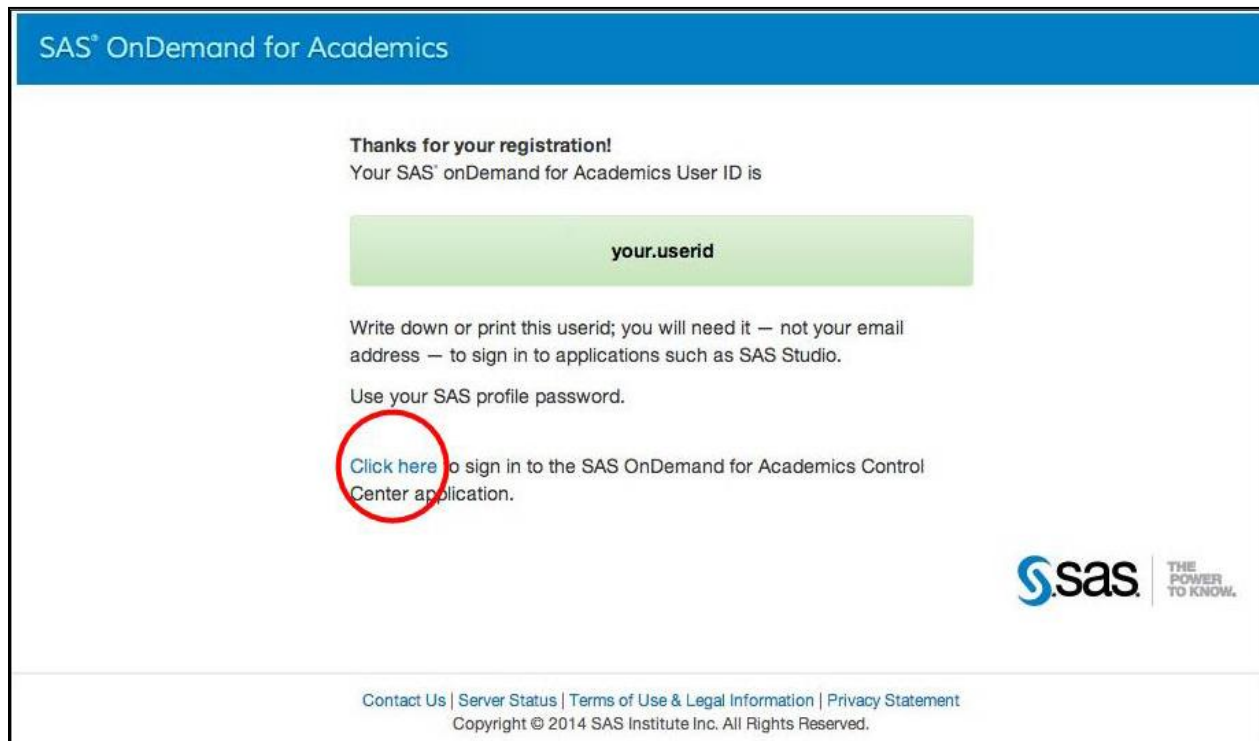

2. Register for **SAS OnDemand for Academics**.

SAS will present the following screen for you to create a password (*do not forget it!*):

The screenshot shows the 'E-mail Verification' step of the SAS OnDemand for Academics Registration process. The page title is 'SAS® OnDemand for Academics Registration'. The main heading is 'E-mail Verification'. Below it, a message reads: 'Thank you for verifying your email address. Create a password to complete your registration.' The form contains three input fields: 'E-mail address' (placeholder: 'Enter email'), 'Password' (placeholder: 'Enter a password'), and 'Confirm Password' (placeholder: 'Enter a password'). Below the fields is a checkbox labeled 'I agree to the SAS OnDemand for Academics license. (View license)'. An orange 'Create Account' button is below the checkbox. At the bottom, the 'Password rules' are listed: 'At least 8 characters long and contains characters from at least 3 of the following 4 categories: uppercase characters (A - Z), lowercase characters (a - z), digits (0 - 9), non-alphanumeric (!, \$), and Do not use part of your email address in your password.' The footer contains links for 'Contact Us', 'Server Status', 'Terms of Use & Legal Information', and 'Privacy Statement', along with the copyright notice 'Copyright © 2011 SAS Institute Inc. All Rights Reserved.'

Next, SAS will create a userid for you to use. SAS will show you a screen (see screen shot below) with your userid. **Do not forget it!** You will need both your **userid** and **password** to log on to SAS OnDemand for Academics.

You are now registered for **SAS OnDemand for Academics**. If you want to start using SAS Studio immediately, you may click in the red circle as shown on the screen shot above.

If you already have a SAS profile ...

If you already have a SAS profile that you may have created in another course, you may keep it and use it for SAS OnDemand for Academics as long as you remember the email address and password that you set up for that SAS profile. *[If you do not remember, then create a new SAS profile.]*

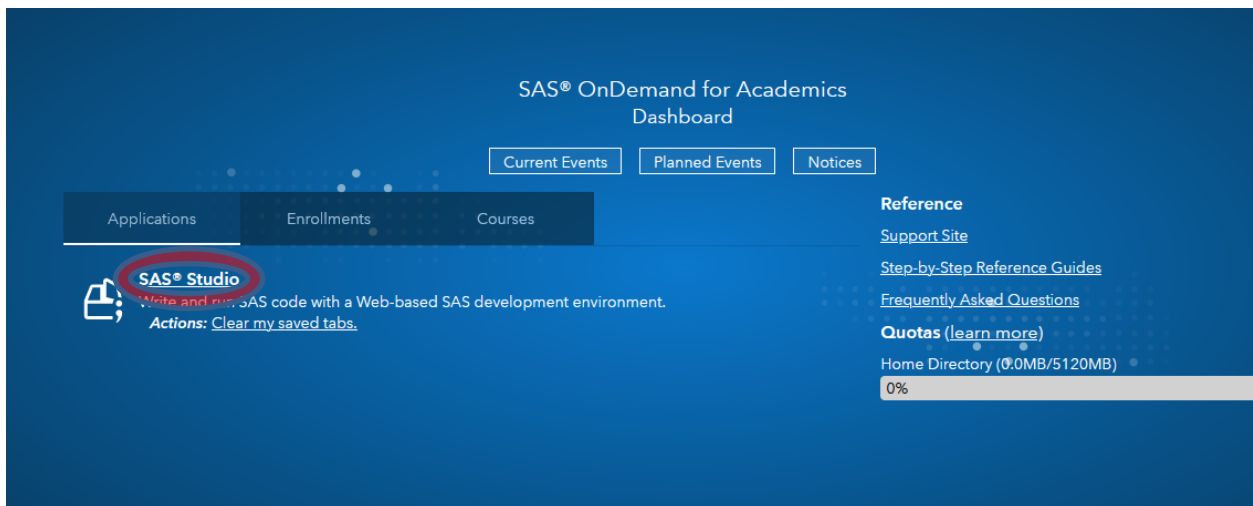

To use your existing SAS profile, fill out the form in step 1 above and provide the same email address that you used to create your SAS profile previously. SAS will find you and acknowledge you (see screen shot below).

Then click CONTINUE in the acknowledgment, and you will be done.

How to Log on to SAS OnDemand Normally

After you have set up SAS OnDemand for Academics as explained above, you will normally log on by pointing your browser to <https://odamid.oda.sas.com/SASODAControlCenter/index.html> You will get a login screen, as shown in the screen shot below. Login with your SAS profile **userid** and **password**. [You did remember to record them, didn't you?]

This will take you to your SAS “dashboard” (also called the Control Center), similar to the following:

To run SAS Studio, click in the red circled area as shown in the preceding screen shot.

Your SAS Studio will look similar to the following screen shot, with the program editor on the right and your file structure on the left. You will write and run SAS programs in the program editor. You will save programs, datasets, upload and download files in the file structure area. But those functionalities are not covered in this document.
